**SCHNEIDER LOGISTICS HONORED BY *INBOUND LOGISTICS* FOR PREMIER 3PL PERFORMANCE**

*Schneider Logistics Makes Top 100 Logistics Provider List for 10<sup>th</sup> Consecutive Year;  
Places in Top 10 Percentile for Sixth Consecutive Year*

**GREEN BAY, Wis.—September 17, 2007** — Schneider Logistics, Inc., a leading international logistics provider and part of the Schneider National enterprise, announced it has once again been recognized as a Top 100 3PL Provider for 2007 by *Inbound Logistics* magazine. This is the 10<sup>th</sup> consecutive year Schneider Logistics has received this honor and marks the sixth year in a row the company has placed among the top 10 providers. The distinction is awarded to 3PL providers that have best demonstrated their ability to excel at meeting the changing needs and demands of their customers.

According to Tom Escott, president of Schneider Logistics, the company has significantly expanded its presence in import deconsolidation and port drayage within the last year to enhance its global capabilities and create a supply chain organization capable of serving any company, from complex global enterprises to smaller emerging businesses. "Our 15-year track record of excellence in supply chain management is backed up by our suite of industry-leading transportation and supply chain management technology," said Escott. "Shippers of all shapes and sizes understand the value that companies like Schneider can bring to the supply chain."

"We chose Schneider Logistics for its experience and understanding of the industry," said Eugene Galdi, procurement director for logistics and transportation services at Honeywell, when asked what the diversified technology and manufacturing leader looks for when selecting a third-party logistics provider. "You just know you're going to get good service. When we ask for anything, they get it done. We've learned that no matter how good the sales person is, it's the person on the desk who impacts us the most. I can tell you, the people at Schneider Logistics are doing an outstanding job."

To determine the Top 100 3PL Providers, *Inbound Logistics* editors selected recipients from a pool of more than 400 companies using a comprehensive process of evaluating questionnaires, conducting research and soliciting reader feedback. The goal of the distinction is to provide a balanced and accurate assessment of *Inbound Logistic* readers' needs and select the 3PLs editors believe are best suited to meet their specific requirements.

**About Schneider Logistics, Inc.**

Schneider Logistics, Inc. is an international logistics provider to Global 2000 companies. Schneider Logistics helps customers capture strategic business value from their supply chains in the form of lower distribution costs, reduced inventory, improved customer service and increased availability to working capital. The company provides end-to-end supply chain management, warehousing, transloading, transportation management and international logistics services.

Schneider Logistics is a wholly owned subsidiary of Schneider National, a premier provider of truckload, logistics and intermodal services. Headquartered in Green Bay, Wis., Schneider National has provided expert logistics and transportation solutions for more than 70 years. A \$3.7 billion company, Schneider National conducts business in more than 28 countries in North America, Europe and Asia and continues to grow its international service offerings.
