

Working with a leader has many advantages. Save on your operating costs through the Schneider Carrier Purchasing Program!

As a participant in the Carrier Purchasing Program, you are able to leverage Schneider's purchasing power with its suppliers to purchase fuel and maintenance at a reduced cost - no matter what size carrier you are. Fuel discounts are based on the percentage of total gallons purchased at participating suppliers and all transactions are monitored via your fuel card.

The three tiers of discounted fuel rates available to carriers are:

- **Up to 20% of All Gallons Pumped in Program - Tier 1**
Receive a \$.02 per gallon discount at the point-of-sale at all TA Travel Centers and Petro Stopping Centers with a potential savings of \$400 per truck per year
- **20% up to 50% of All Gallons Pumped in Program - Tier 2**
Receive - at TA Travel Centers - the better of cost plus \$.08 per gallon (with a maximum savings per fueling of \$.15 per gallon) or retail less \$.02 per gallon and a \$.02 per gallon discount at the point-of-sale at all Petro Stopping Centers with a potential savings of \$1,000 per truck per year
- **More than 50% of All Gallons Pumped in Program - Tier 3**
Receive - at TA Travel Centers - the better of cost plus \$.06 per gallon (with a maximum savings per fueling of \$.15 per gallon) or retail less \$.03 per gallon and a \$.02 per gallon discount at the point-of-sale at all Petro Stopping Centers with a potential savings of \$1,400 per truck per year

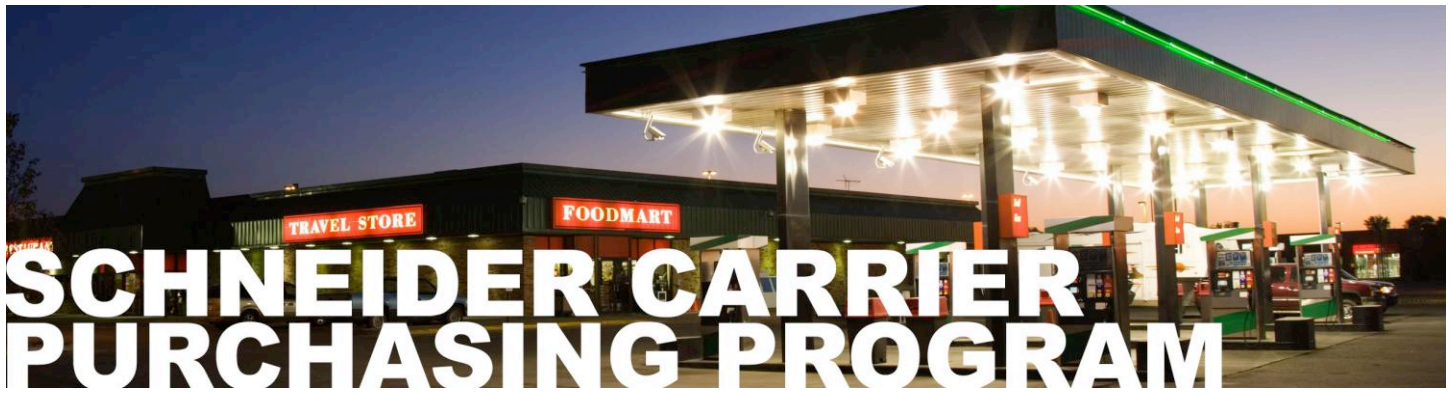

Carriers new to the program automatically start in Tier 2. Fueling percentages and discounts will be adjusted after completing one quarter in the program. From there on out, fueling percentages will be reviewed on a quarterly basis and adjustments will be made at the start of each quarter. **By moving to a higher tier your potential savings may be an additional \$600-\$1,000 per truck per year.**

To participate in the Carrier Purchasing Program you will need a fuel card from one of the participating fuel cards providers (Comdata, EFS, or Fleet One). Some of the benefits of a fuel card include:

- Discounted prices at TA Travel Centers and Petro locations
- Cash price on fuel purchases outside of CPP network
- Ability to control where your drivers fuel
- Information captured at the point of sale helping you manage expenditures
- Specifying authorized products and limits for certain purchases
- On-line administration of your account
- Cash services for your drivers

To assist you in selecting a fuel card provider we have included contact information on the participating fuel card providers with the package.

In addition to fuel, members of the Schneider Carrier Purchasing Program will receive the following discounts to help reduce operating costs:

Maintenance

Beginning September 1, all carriers in the Schneider Carrier Purchasing Program will automatically be eligible to receive savings at the **point-of-sale** on tractor/trailer preventative maintenance (PM) at TA and Petro locations. **Carriers will receive a discount of \$15 per tractor PM and a \$5 per trailer PM.** With over 230 locations nationwide available 24/7/365, the TA and Petro shop networks are available to help you with preventative maintenance (PM), tires, OTR breakdowns, air conditioning repairs, certified Freightliner warranty repairs and many other routine repairs. To obtain the savings you will need to provide your company name and motor carrier number to the shop technician prior to the start of the transaction.

Road Squad Emergency Roadside Assistance is available through the Schneider Carrier Purchasing Program to help assist you when you break down over the road **with no additional charges on weekends or after regular hours.** Operated by TA and Petro, the Road Squad program has 400 trucks that are available around the clock to assist if you break down out on the road and cannot get to a repair facility for help.
