

## GET MORE FROM LESS THAN A TRUCKLOAD.

Schneider Logistics' new Integrated Delivery Service provides a smarter, more reliable and more cost-effective answer for recurring LTL shipments. Your shipments move on regular dedicated routes - with dedicated drivers who deliver as promised. Then there's the cherry on top. By sharing the ride, you save a bundle.

### IT'S LTL – ONLY BETTER, FASTER AND A LOT LESS EXPENSIVE.

Schneider's Integrated Delivery Service combines our Supply Chain Management technology, cross-dock and dedicated trucking expertise to keep your shipments moving without the typical LTL tradeoffs.

Why Schneider Integrated Delivery Service:

**Lower costs, higher expectations.** Our integrated approach lets us pool shipments to save you time and money. With a deep network and strategically located facilities already in place, we can give you customized answers at better-than-market rates. We make over 99 percent of our stops within 24 hours.

**The services you need, always at your service.** Our approach gives you single-source access to a range of services never before possible.

- Inbound/Outbound consolidation
- Specialty equipment, including liftgate
- Next day/night/unattended delivery
- HazMat-certified drivers
- Pool distribution
- Reverse logistics

**Always on track, always on target.** Wherever your goods are going, our infrastructure is already there awaiting them. Our sophisticated and intelligent cross-dock network, with state-of-the-art scanning technology, gives you instant visibility. Every one of our tractors is satellite equipped so you always know exactly where your shipments are.

**Efficiency at every turn.** We're primed to improve service every chance we get. We harness our expertise and state-of-the-art technology with reliable drivers to deliver greater dependability and lower costs.

See how our new Integrated Delivery Service can help you run leaner, smarter and faster.
