

DISTRIBUTION SERVICES

COSTS, CONTAINED. INVENTORY, SHIPPED. CUSTOMERS, HAPPY.

Schneider Dedicated Services give you a lock on costs, the highest levels of service and better ideas for getting your goods reliably onto store shelves. Let us do for you what we do better than anyone.

FOUR MILLION SUCCESSFUL STORE DELIVERIES A YEAR AND COUNTING.

Our associates think of your business as their own and take personal accountability for your growth and success. We also have the know-how and flexibility to expand with your business while keeping your costs in check.

It's the big things that make all the difference:

- **Fleet engineering expertise**

Our engineers can build you an operation from the ground up and reengineer your freight flow to optimize your shipping operation. We manage all the variables to cut costs, drive down waste and adjust asset use so you get the most value for every mile driven by every truck.

- **Industry-outdistancing performance**

With a proven track record of 99% or better on-time performance and the lowest preventable accident frequency among top carriers, we keep your customers supplied and content.

- **All the capacity you'll ever need**

As one of the largest asset-based carriers, we own the capacity to handle your seasonal spikes and special promotions. We operate our fleets with a lean approach - so you only receive and pay for extra capacity as you need it.

- **Aggressive approach to backhaul**

We employ a dedicated team just to identify and fill backhauls for our customers. With our huge freight volume, it's no sweat to take on your backhaul and drive down empty miles.

- **Most sustainable fleet on the road**

Schneider has earned the EPA's SmartWay Award of Excellence every year since its inception. In doing so, we've reduced emissions, maximized fuel efficiency and saved millions of dollars for our customers.

Make Schneider Distribution Services your tried-and-true carrier.
