

PRIVATE FLEET SERVICES

GRAB A STRANGLEHOLD ON COSTS WITHOUT GIVING UP AN OUNCE OF CONTROL.

Hire Schneider Private Fleet Services and you eliminate the risk and liability of operating a private fleet while reaping the reward of 10–15% cost savings. It's still your fleet, only without the capital costs and management responsibilities. With the time you regain and the capital you preserve, you can focus on what you do best: running your core business.

OUR DEDICATED SERVICES ARE CUSTOM-BUILT AROUND YOUR OPERATION.

We provide the expertise, training and assets required to keep everything running smoothly, including professional transition of existing personnel and a proven, step-by-step start-up process for a seamless conversion.

Schneider Private Fleet Services do more:

- **Industry-leading performance**

Your customers depend on you for products delivered safely and on time. Schneider's 99% or better on-time delivery performance and the lowest preventable accident frequency among top carriers means satisfied customers all the way around.

- **Fleet engineering expertise**

Our fleet engineers will build your fleet from the ground up, reengineering freight flow and optimizing your shipping operations. Then we continue to hunt for new ways to reduce costs and pass those savings along.

- **The capacity you need, when you need it**

With more than 12,000 trucks, 33,000 trailers and nearly 13,000 drivers, you're tapped into all the capacity you need to handle any special promotion or seasonal spike. We operate our fleets on a lean philosophy—so you only draw and pay for extra capacity as you need it.

- **Aggressive approach to filling backhauls**

Schneider dedicates an entire team just to identify and fill backhauls for our customers. With our enviable freight volume, we can absorb your backhaul and drive down empty miles.

- **Most sustainable fleet on the road**

Schneider has earned the EPA's SmartWay Award of Excellence every year since its inception by reducing emissions and maximizing fuel efficiency. Beyond being environmentally responsible, our approach saves customers money at every turn.

Let's get the conversation rolling.
